CAESAR COLLECTION

30 MINUTE CAESAR [HOCKEY INSPIRED] 10z

ketel one vodka | horseradish | lime juice | spicy dill pickle | ONYX signature rub rim 12

AN OLD HOCKEY DRESSING ROOM STORY...

In 2004 when proprietors of Pearl Nicholas & Angela Popoff built Pearl on the Rock they were only 23 years old at the time and had very little money. Nicholas "employed" his beer league hockey buddies to help build the restaurant with promises of free drinks once they opened. It was so busy once they opened and because Nicholas' beer league hockey buddies were not paying he would always put their drinks behind paying customers hence taking 30 minutes to make.

Behold the 30 Minute Caesar was born and has been awarded Vancouver's 2nd Best Caesar.

SCOTCH

ISLAY

This region is known for its peaty and strong flavored whisky. The single malts produced here are briny, smoky and extreme due to extremities of the sea that surround the area.

Scotch from the Islands is typically a transitional style that bridges the wide gap between Highland Scotches and Islay Scotches.

JOHNNIE WALKER BLACK 10yr 16

CAMPBELTOWN

There are only three remaining distilleries that are active in this region - Glengyle, Glen Scotia, Springbank. Scotches from this region have a heavy sea influence and one detect the salt and brine as well as the peat that's used in the whisky production here.

SPRINGBANK 10yr 24

LOWLAND

Only three distilleries continue to operate in this southernmost area in Scotland: Auchentoshan, Blandoch, and Glenkichie. The whiskey's produced in this area are considered the most light bodied of all Single Malt Scotches.

AUCHENTOSHAN "THE TRIPLE DISTILLED" 12yr 19

GLENKINCHIE "THE EDINBURG MALT" 10yr 25

SPEYSIDE

Speyside gets its name from the River Spey, which cuts through this region and provides water to many of the distilleries. Despite its relatively small area, Speyside is home to more than half of the operating distilleries in Scotland. Speyside Scotch is considered to be the most complex and offers sweet aromas and rich flavor profiles
